OnLine Training Institute and Redding College

OnLine Training Institute was established in 1997 to develop and distribute educational products via the Internet. OLT has expertise in developing and delivering a wide range of professional education and certificate programs, adult continuing education, educational enrichment, for credit college courses, GED preparation, and K-12 home schooling.

Redding College is a wholly owned subsidiary of OnLine Training Institute. Redding College started organizing in 2006. In 2010, Redding College was licensed by the Florida Department of Education's Commission on Independent Education.

All of the Redding College courses are online and use the latest internet technologies. In addition, Redding College works with it's clients and partners to provide the best virtual learning environment possible.

Redding College's experienced faculty and staff are available to work with students on any problems that might arise while they complete their coursework. With Redding College, students do not just find a virtual courses provider, but an educator, mentor, and adviser willing to go the extra mile to make sure that our students reach their full potential.
